

Company License

Thanks for using the Team Party Kit at your company. This page explains what is included, how to start and what the licence allows.

How to start

1 Files

The download contains six Complete kits: the Holiday edition and the All-Year edition, each in English, German and Spanish. Every kit opens with a start-here guide. Unzip each ZIP file on its own (Windows: right-click > Extract All, Mac: double-click). The fonts for PowerPoint and Keynote are in the folder 10_Fonts of every kit.

2 Sharing

Feel free to put the files on your intranet or a shared internal drive, so every team and office can use them.

3 Quiz show

Open teampartykit.com/show and enter the licence key from your Gumroad receipt. Every internal host may use the key, for both editions.

4 Invoice

Click “Generate” at the bottom of your Gumroad receipt and add your company name, address and VAT number. With a valid EU or UK VAT number Gumroad refunds the VAT. Purchase order numbers go into “Additional notes”.

5 Logo and company round

Business and Enterprise: send your logo to hello@teampartykit.com and we add it to the PowerPoint master. Enterprise: we send you a short form for your company round.

6 Certificate

Need a licence certificate with your company name, for example for procurement? A short email with company name and order number is enough.

Company License: Licence terms

Licensee	The company named at purchase or on the invoice. On the Enterprise tier the licence also covers its affiliated companies.
Tiers	Team: up to 50 employees, €69. Business: up to 250 employees, €149. Enterprise: unlimited, €349. One-time prices, no subscription. The number of employees at the time of purchase counts. If the company grows past its tier, an upgrade at the price difference is enough.
Product	Team Party Kit: Company License, bought on Gumroad: sgforce.gumroad.com/l/company-license . The same licence exists in German (sgforce.gumroad.com/l/firmenlizenz) and Spanish (sgforce.gumroad.com/l/licencia-empresa), with the same files.
Allowed	Use of all included kits for the company's internal events, at every location and in every country, on site, hybrid and remote. Any number of internal hosts and events, with no time limit. Edit, translate and add your own logo. Storage on the intranet and internal drives as long as only employees have access. Service providers running an internal event on the company's behalf may use the materials for that event.
Not allowed	Reselling, passing the files to other companies, publishing the files online, using them for events of external clients or for public events with paid admission. Event agencies can ask us for a separate partner model.
Quiz show	Every internal host of the company may use the licence key. Please do not share it publicly. It stops working after a refund.
Updates	Improvements to the purchased kits are free in your Gumroad library.
Copyright	All texts, questions and graphics are original works by Team Party Kit. Fonts are licensed under the SIL Open Font License. Statutory rights are not affected.
